

The Faculty of Biology and Pharmacy at the Friedrich Schiller University Jena invites applications for a full

Professorship (W3) in History and Philosophy of Natural Sciences with the emphasis on Life Sciences

The starting date is as soon as possible.

The appointed person should represent the subject History and Philosophy of the Natural Sciences in an internationally outstanding manner in both research and teaching. Concurrently, she/he will be head of the *Ernst-Haeckel-Haus*. The research should be on topics of the 20th century and particularly focus on recent developments in the Life Sciences (for example in molecular biology, biochemistry or genetics) and adjacent sciences. Experiences are desired in the cooperation with domestic and foreign partners as well as in the acquisition of externally funded projects. Requirements for the application are a PhD and Habilitation or any equivalent qualifications, as well as teaching ability.

The Friedrich Schiller University Jena intends to increase the participation of women in academic careers. Consequently, we strongly encourage applications from women. Candidates with disabilities will be given preference to candidates with equal qualifications. Habilitation or equivalent scientific experience is expected. The applicant should have experience in acquiring third-party funding. In case of a candidate's first professional appointment, the initial contract to this tenure position is limited in time by law (ThürHG § 79 (2)). Exceptions to the rule are possible.

For detailed requests, please contact the Dean of the Faculty of Biology and Pharmacy, Professor Dr. Frank Hellwig (dekanbio@uni-jena.de, T+49 3641 949000).

Applications should comprise a detailed curriculum vitae, academic certificates, a complete list of publications and successful grant applications, and a description of teaching experience. Please submit your application in form of a PDF file as an email attachment until **31 May 2016** to:
