The Erasmus University Rotterdam is the first university in the Netherlands offering an International Bachelor in History. This program teaches you everything about the past, but students primarily look at history and historiography through a social, cultural, political and economic lens. This means that students study history thematically and not on the basis of historical periods.

**Courses for exchange students 2016-2017 (Concept list)**

**Fall Semester**
- Economic Crises
- Economic History and International Relations
- Erasmus And Grotius: Two Great Humanists
