# Graduating from Studies

---

- All students retain their student status up until the day they successfully complete all final state examinations (SZZk) and defend their MA or BA thesis.
- Student will graduate with distinction if:
  - They do not have to resit any part of the final state examination (i.e. they completed the final state examinations on their first try).
  - They do not receive the grade “good” from any part of the state final examination.
  - The overall grade for the state final examinations is “excellent”.
  - Their cumulative average grade achieved throughout their studies is 1,5 at the most. You can find your average grade in the SIS by clicking on Summary of exam results – Validations and choose Calculate study average for evaluation of “graduation with honour”
- Exceptional students can receive a special one-time scholarship for graduating. The full conditions for awarding the scholarship are specified [here](#) (available in Czech).
- Before you officially receive your diploma at the graduation ceremony, you can ask the [Student Administration Office](#) to generate an official confirmation of graduation for you. Closer information on graduation ceremonies can be found [here](#) .
