

“We should talk more”

Somayeh.S. Makian

**Master's student of
Gender Studies**

I am a clinical psychologist

and I am doing my second master in gender studies. As a candidate for AS FH, I would like to focus more on events and meetings at Faculty of humanities. Since, we are from different cultures/nations, events can provide students with opportunities to meet new people, focus on their similarities/differences and expanding their perspectives.
