
Scholarship and Funding

Faculty Scholarships and Funding

The Faculty of Humanities offers the possibility of obtaining a scholarship to all students enrolled in a follow-up Master's programme taught in a foreign language (starting in the academic year 2025/2026). The reasons for obtaining the scholarship can be both outstanding performances, as well as social disadvantages; anyone who successfully fulfils the conditions of the admission procedure and enrolls into studies can apply for the scholarship. Further information will be available at a later date.

The Faculty of Humanities rewards its most successful students by giving the top 10% of the best students in the class a **merit-based scholarship** (Scholarship for Outstanding Academic Achievement). This scholarship applies to all active students who achieved excellent academic results in the previous year. The scholarship is awarded to students with the best average grade which is calculated as an arithmetic average of all grades the student achieved in the previous academic year.

Scholarship for Outstanding Academic Achievement Conditions

- Scholarship for Outstanding Academic Achievement is administered by the Faculty of Humanities and is intended for students with excellent study results. The scholarship is paid out annually in the form of a lump-sum payment.
- Students who are enrolled in study as of **November 30** and **received at least 5 grades** in the previous academic year are eligible for the scholarship. This means that students who have graduated, terminated or interrupted their studies as of November 30 are not eligible.
- All eligible students are considered automatically - they do not need to apply for the scholarship.
- Students who will receive the scholarship will be chosen by **December 15**. These students will be contacted via e-mail.
- The scholarship is paid out during the following January.
- You can check your grade average in the Student Information System (SIS) by clicking on Summary of Exam Results - Validations - Calculate scholarship average.
- The scholarship is awarded to the top 10% of students of each study programme.

Other Sources of Scholarships and Funding

Other options of funding your studies can be found through national governments and other non-state institutions. The Czech Ministry of Education, Youth, and Sports (MEYS) offers scholarships to foreign students and researchers. These scholarships are based on exchange programs and agreements between the Czech Republic and other countries. They last anywhere between 2 to 10 months and each of them defines specific eligibility criteria. **More information about scholarships is available** [on the MEYS website](#) .

The MEYS also offers scholarships from the **International Visegrad Fund**. Established in 2000, its goal is to promote closer co-operation between the four Visegrad Group countries – Czech Republic, Slovakia, Hungary, and Poland. The program offers various types of grants for different shareholders; the Visegrad Scholarship is intended for **Master's** and **Doctoral** students. These scholarships are awarded not only to applicants from the Visegrad countries but also to applicants from Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Croatia, Georgia, North Macedonia, Moldova, Montenegro, Serbia and Ukraine, enabling them to study in one of the V4 countries; the same rules apply also to applicants from Kosovo. More information on the Visegrad fund is available on the [Visegrad Fund website](#) .
