
Summer Schools

Students of Charles University have the opportunity to attend a wide range of summer (and sometimes winter) schools. These are typically short-term study trips focused on a specialized topic, often accompanied by an intensive lecture series, workshops, and/or group presentations.

International summer schools are administered by the organizing universities or institutions, so there is no selection process at the faculty. However, foreign universities or institutions may require confirmation/nomination/recommendation from the International Office of the home university. In such cases, you must request the issuance of such a document from the FHS International Office well in advance (we recommend at least 20 working days) and provide all the necessary documentation—if you need this document, please [contact us](#) .

Our International Office receives various invitations to summer schools abroad. The updated offer can be found [here](#) (on our Czech website, but most of the information is in English). **This list is not exhaustive, and you can find more offers for summer schools on the [Summer Schools in Europe](#) portal, the [Charles Abroad](#) portal (only in Czech), or directly on the websites of the foreign universities you are interested in.**

Within Charles University, financial support for summer schools can be requested through the [POINT CU](#) programme (Support for Internationalization of Charles University). **In some cases, universities offer tuition fee reduction if you are from a partner university.**

Most summer school invitations usually start appearing between February and May.
