The team of the International Office
THE CITY OF BOCHUM

Studying in Bochum is not only about having your head buried in books. It is also about having the chance to experience culture, nature, and history. The Ruhr area actually has the highest density of theatres and cultural events in Europe, and Bochum one of the three best theatre halls in Germany. If after the theatre, concert or film you want to go for a drink or to party through the night, just visit the well known Bochum pub district, the so-called 'Bermuda Triangle'.

All who want to walk, cycle, or row can meet up under the blue sky in and around the Kemnader reservoir, just south of the RUB. There is also the university's own botanical garden for the lunch hour.

If you want history, then all around you in the Ruhr area is the imposing evidence of the industrial age gone by. You can experience how an industrial region has re-awoken to a new life but at the same time is a witness to recent history. Visit the Zeche Zollverein – part of the UNESCO’s world’s cultural heritage list - in Essen to see this for yourself.

RUHR-UNIVERSITÄT BOCHUM

Did you know that the Ruhr area is the largest economic region in Europe? It is also a region that has one of the highest concentrations of institutions of higher education. Thirty years ago the region’s main source of income was coal mining but now an important culture landscape has started to blossom. Where miners used to work the service industry and sciences have found their home. One of the motors of this remarkable transformation is the Ruhr-Universität Bochum (RUB) which was founded in 1965 and was the first university in the Ruhr area. From the start the RUB has been innovative: it has integrated the engineering sciences and the traditional university on a single campus where it practises interdisciplinary cooperation.

Studying at the RUB offers you all the advantages of a campus university: within a stone’s throw from wherever you are you will find the A-to-Z of academic life. 20 faculties with 100 courses of study offer a variety of courses unique in Germany and opportunity for almost infinite possible combinations. The humanities, the natural sciences, engineering, and medicine live here side-by-side in a creative ambience. The 'Klinikum Bochum' is a nationally and internationally renowned name in medicine. It is the place where intensive training for clinical practice is done in cooperation with 10 medical centres (hospitals to specialized surgical practices).

About 32,000 students are currently studying at the RUB. International research, interdisciplinarity, and attractive study conditions have attracted around 4,000 foreign students and some 350 exchange students from all around the globe to the RUB each year. With hundreds of international links from Tokyo to Texas, from Shanghai to Sheffield, the RUB is cosmopolitan and international. So, if you would like to broaden your horizon and be spoilt for choice for the subjects on offer, then for you it is: Come in!
